

**More than communication.
A secure platform where
knowledge is shared and
people stay connected.**

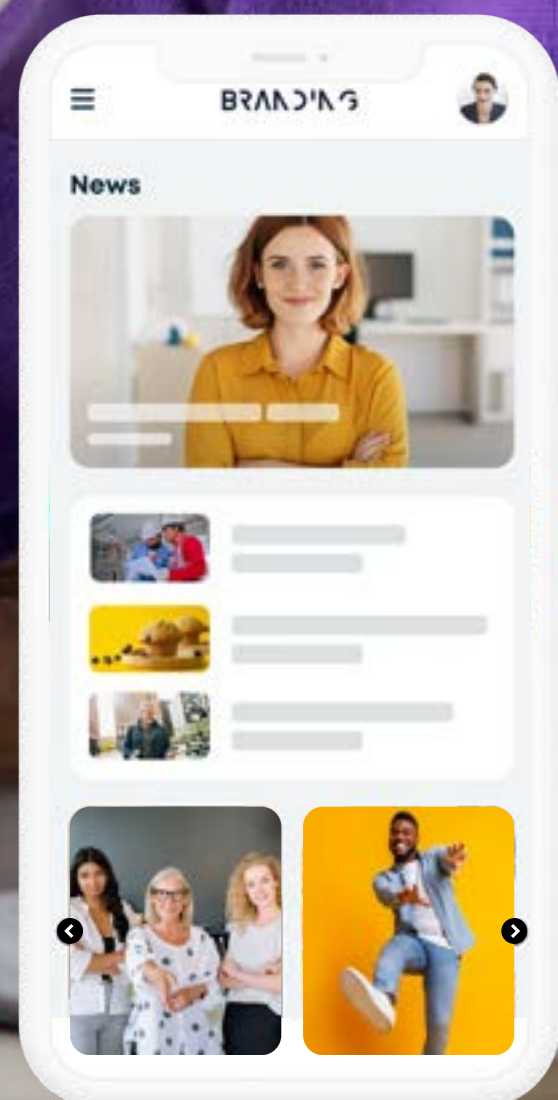

Fellow Intranet+

● Communication today needs more than announcements

Organizations today are fragmented, dynamic, and spread across locations and devices. With information changing constantly, teams need more than email and chat. Communication must be clear, accessible, and part of daily work.

That's where Fellow Intranet+ comes in:

A platform built for organizations where information, training, and collaboration reach everyone—securely and without barriers, every day.

● Fellow Intranet+ combines them all

Information

keep everyone aligned

- Share news and updates in one central place
- Make critical information accessible to everyone
- Reduce scattered communication and information overload

Connection

bring people together

- Build strong communities across locations
- Encourage feedback and knowledge sharing
- Strengthen culture and engagement

Training

make knowledge stick

- Share documents, best practices and trainings
- Enable wikis, information hubs and knowledge bases
- Keep knowledge visible, current and easy to maintain

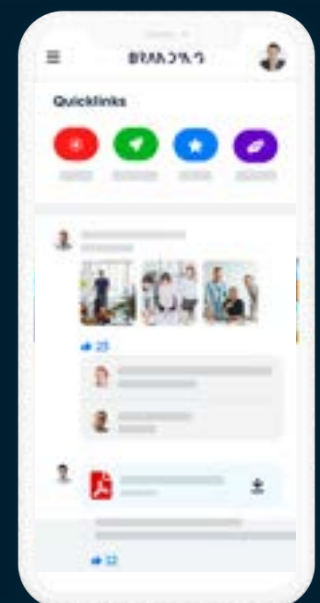

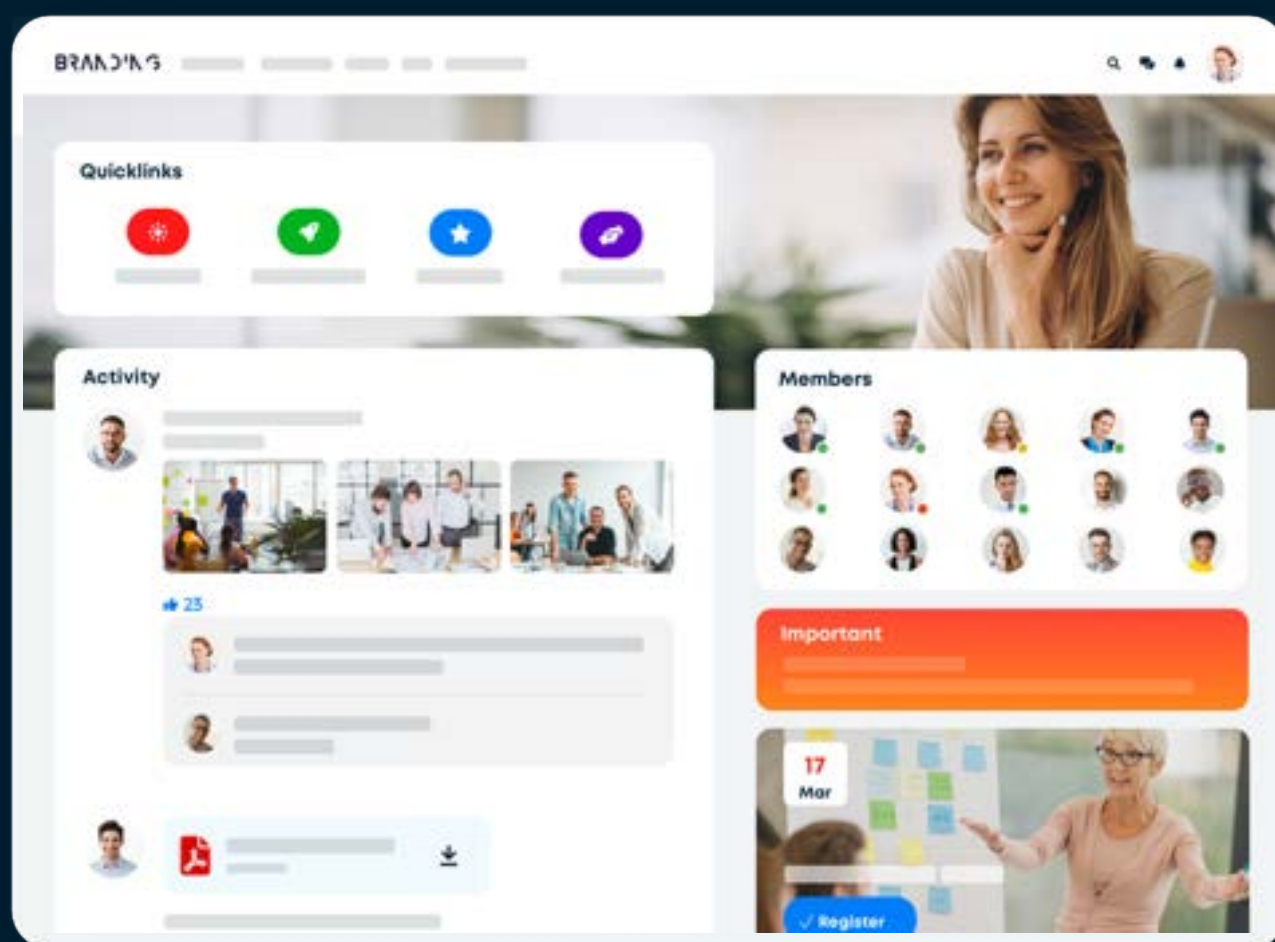

Start your day informed, with everything in view

Information

keep everyone
aligned

The homepage is the heart of your intranet. When employees log in, they need instant clarity: What should I do today? What's new? What matters to me? Without a clear starting point, critical information gets missed. That's why Fellow Intranet+ offers every user a personalized starting page.

Up to 3x more intranet visits

- ✓ Branded homepage for a familiar feel
- ✓ Important news and updates in one place
- ✓ Quick links to frequently used pages

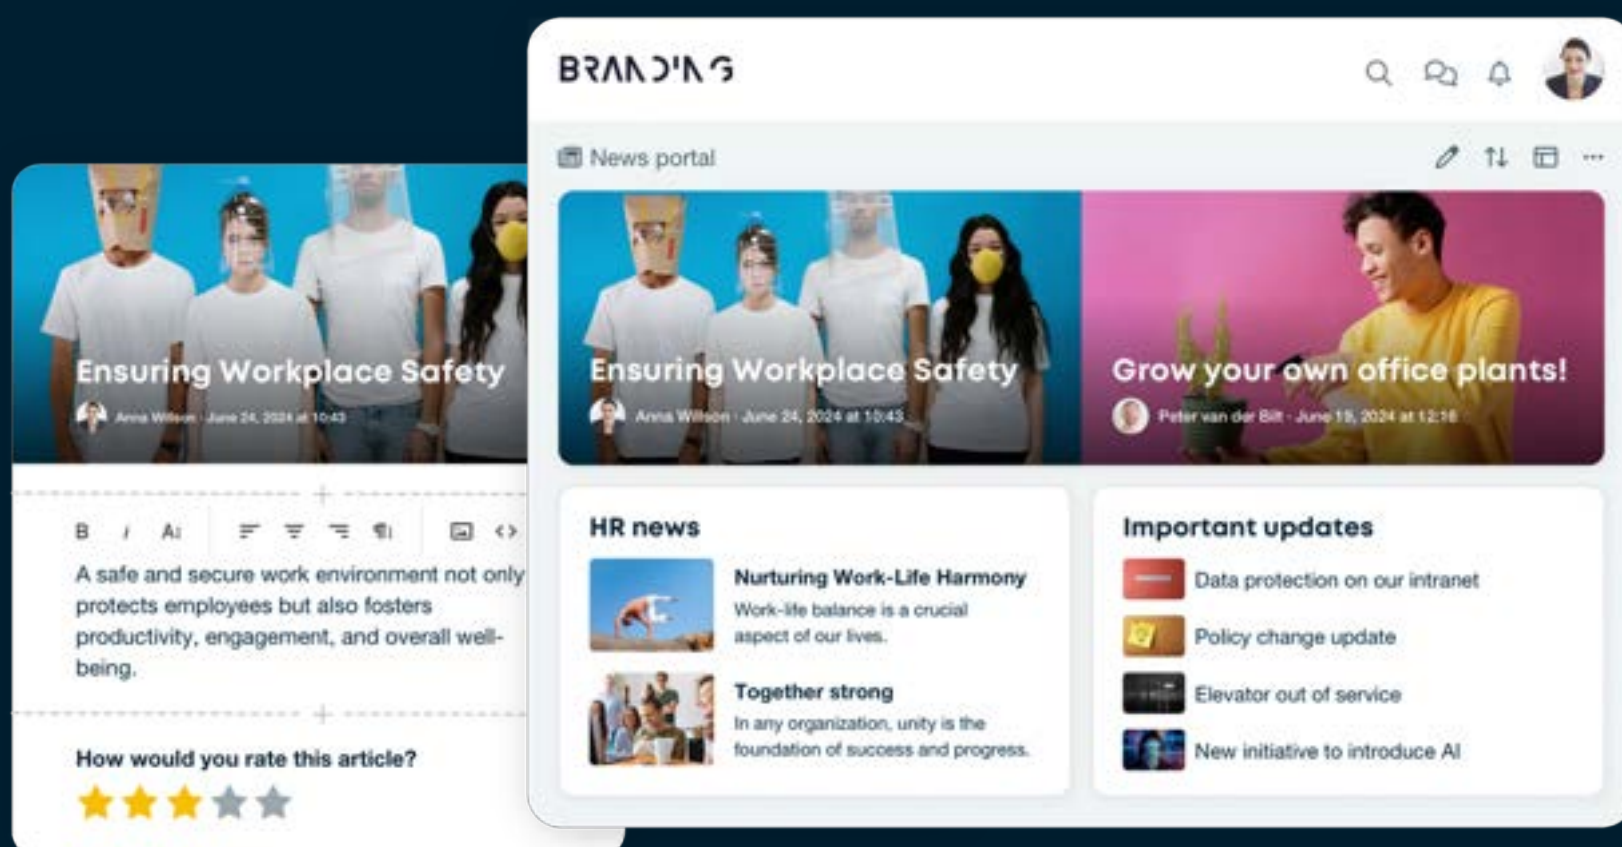

Create and publish internal news effortlessly

Information

keep everyone aligned

Our modern news module lets you create and publish internal news in one centralized location. Enhance your content with photos, documents, and videos, and share updates instantly or schedule them for later.

Cut missed updates by 50%*

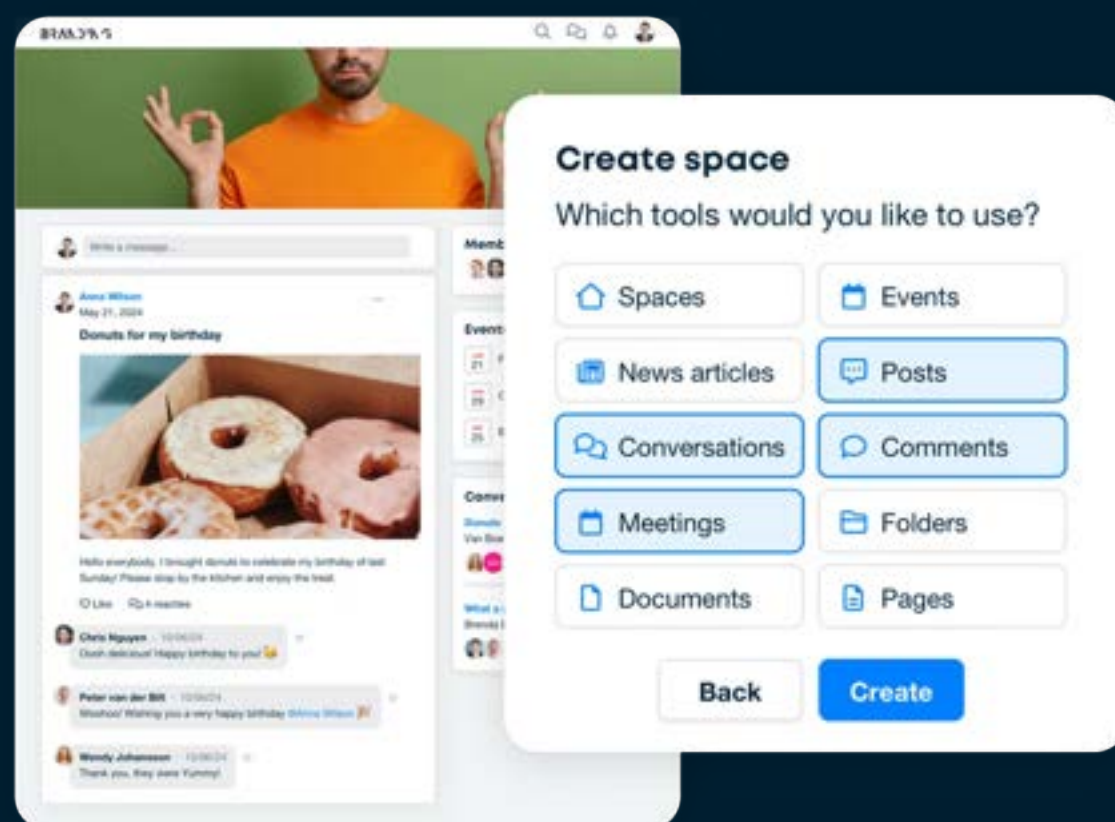

- ✓ Targeted notifications and summaries
- ✓ Co-create, schedule, and publish news in one place, including comments and translations
- ✓ Distinguish between "nice-to-know" and "need-to-know" updates

Share knowledge continuously, not just in news

Information
keep everyone
aligned

Only if people find instantly what they need, they accept the platform as their standard source of information. Fellow Intranet enables you to create dedicated spaces for different types of information,

Find information 5x faster

- ✓ Structured portals for policies, manuals and guidelines
- ✓ Wikis to capture evolving knowledge and best practices
- ✓ Easy-to-find spaces, accessible to the right people

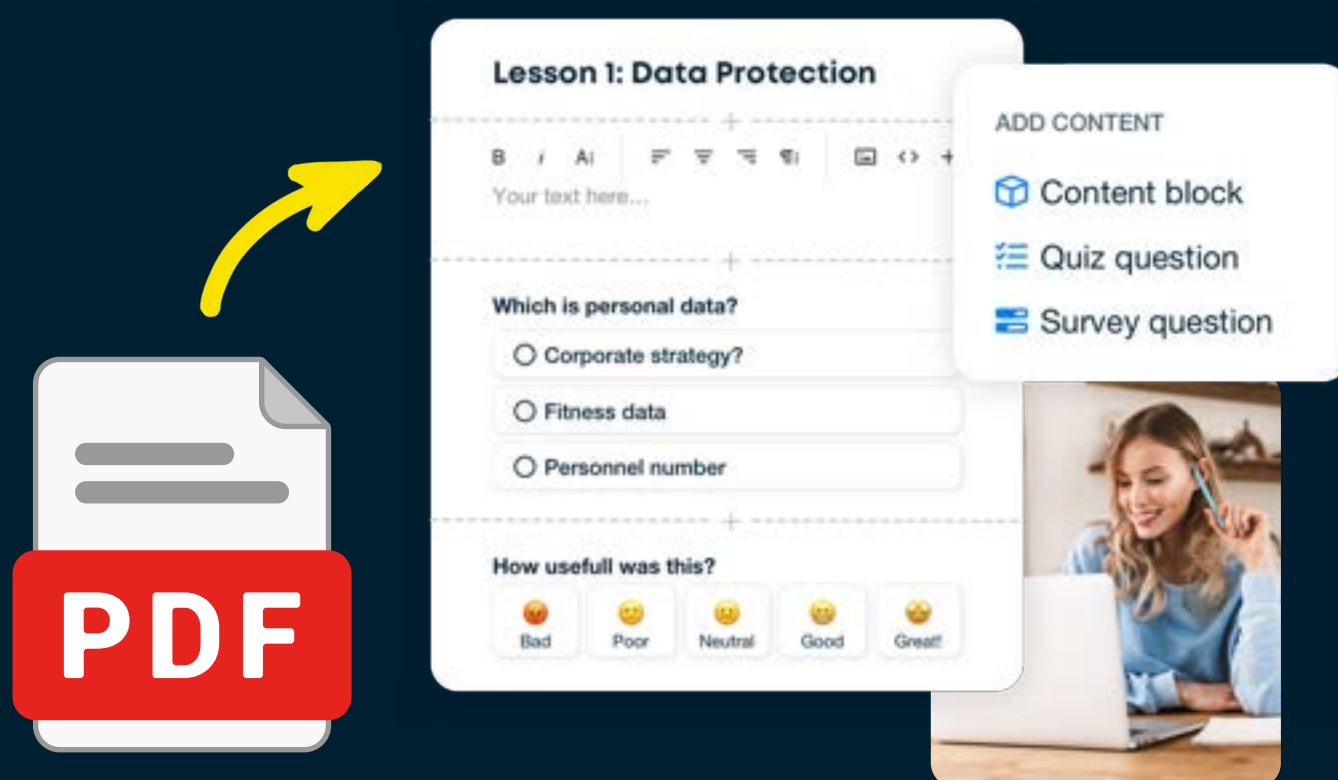

Turn policies and guides into engaging learning

Training

make knowledge stick

Your intranet is full of policies, manuals, and SOPs, but how do you ensure your team actually reads, understands, and applies them? With Fellow Intranet+, you can transform dry documents into interactive learning experiences that employees complete and retain.

Completion rates up to Ø 95%

- ✓ Easy course creation with or without AI support
- ✓ Engaging formats, such as Microlearning, traditional eLearning or Blended Learning
- ✓ Track learning progress – individually or in detailed group reports

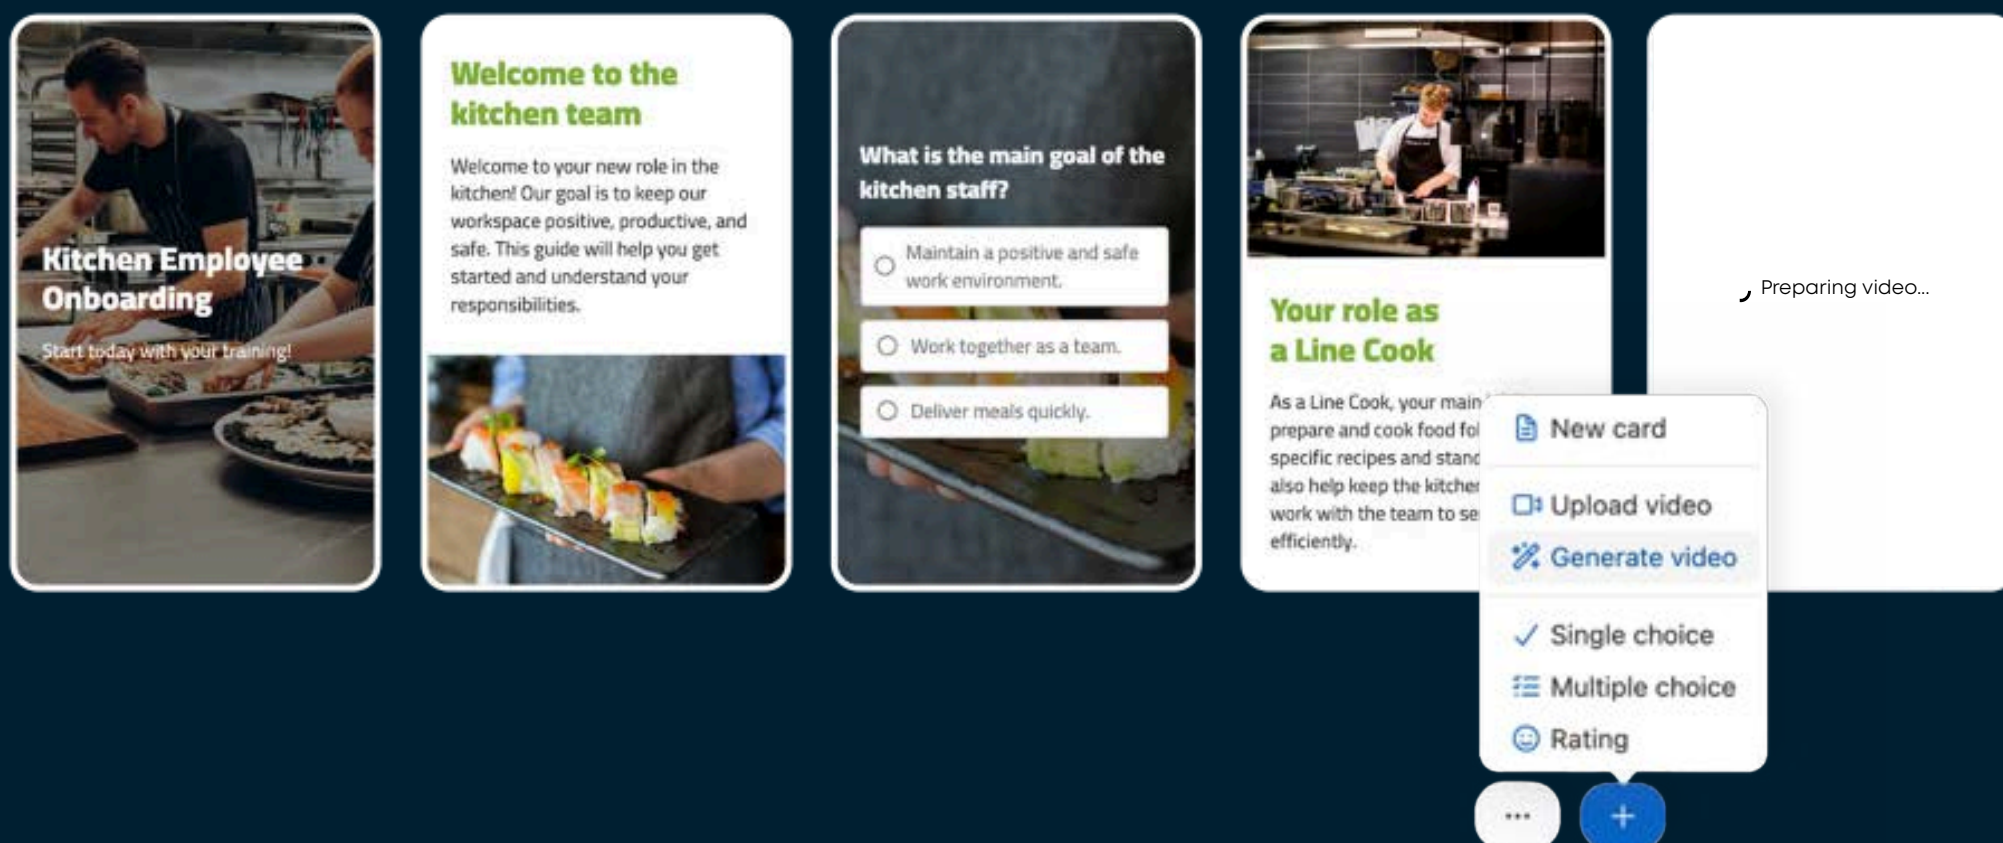

Create content fast with AI support

Training

make knowledge
stick

Turn existing knowledge into effective learning formats in minutes. Our **AI Course Generator** transforms any text material into appealing courses, including pictures and quizzes.

No-time course creation without any experience

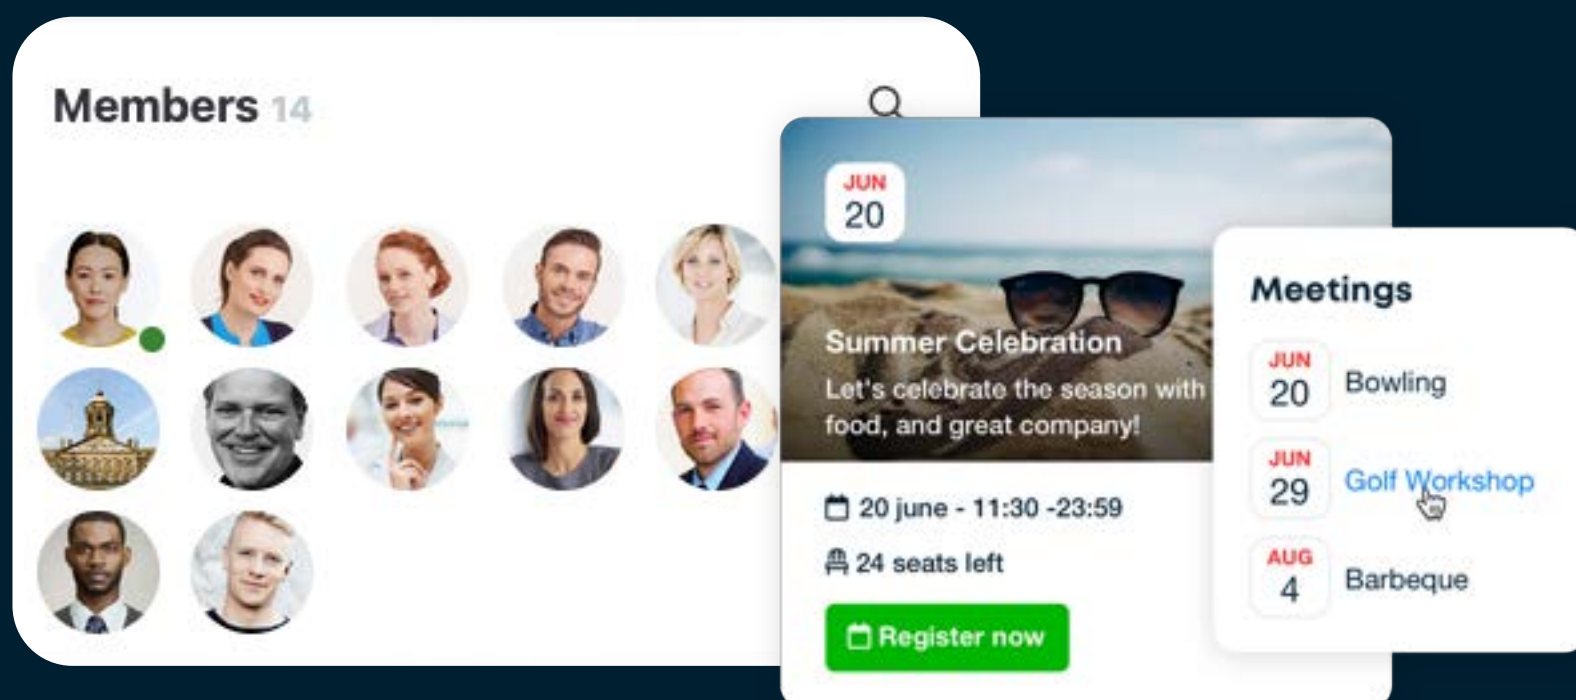

- ✓ Transform PDFs, PowerPoints, websites and documents into engaging courses
- ✓ Design, edit and update content directly on the page, no technical skills required
- ✓ Optional: AI generated avatar video to add variety to learning content

Drive interaction and engagement

Connection
bring people together

What makes people visit and interact with the platform every day? Relevant content, easy access to events, and a searchable directory of experts. Fellow Intranet+ makes it simple to connect with the right people and resources.

Boost engagement by 25-30%*

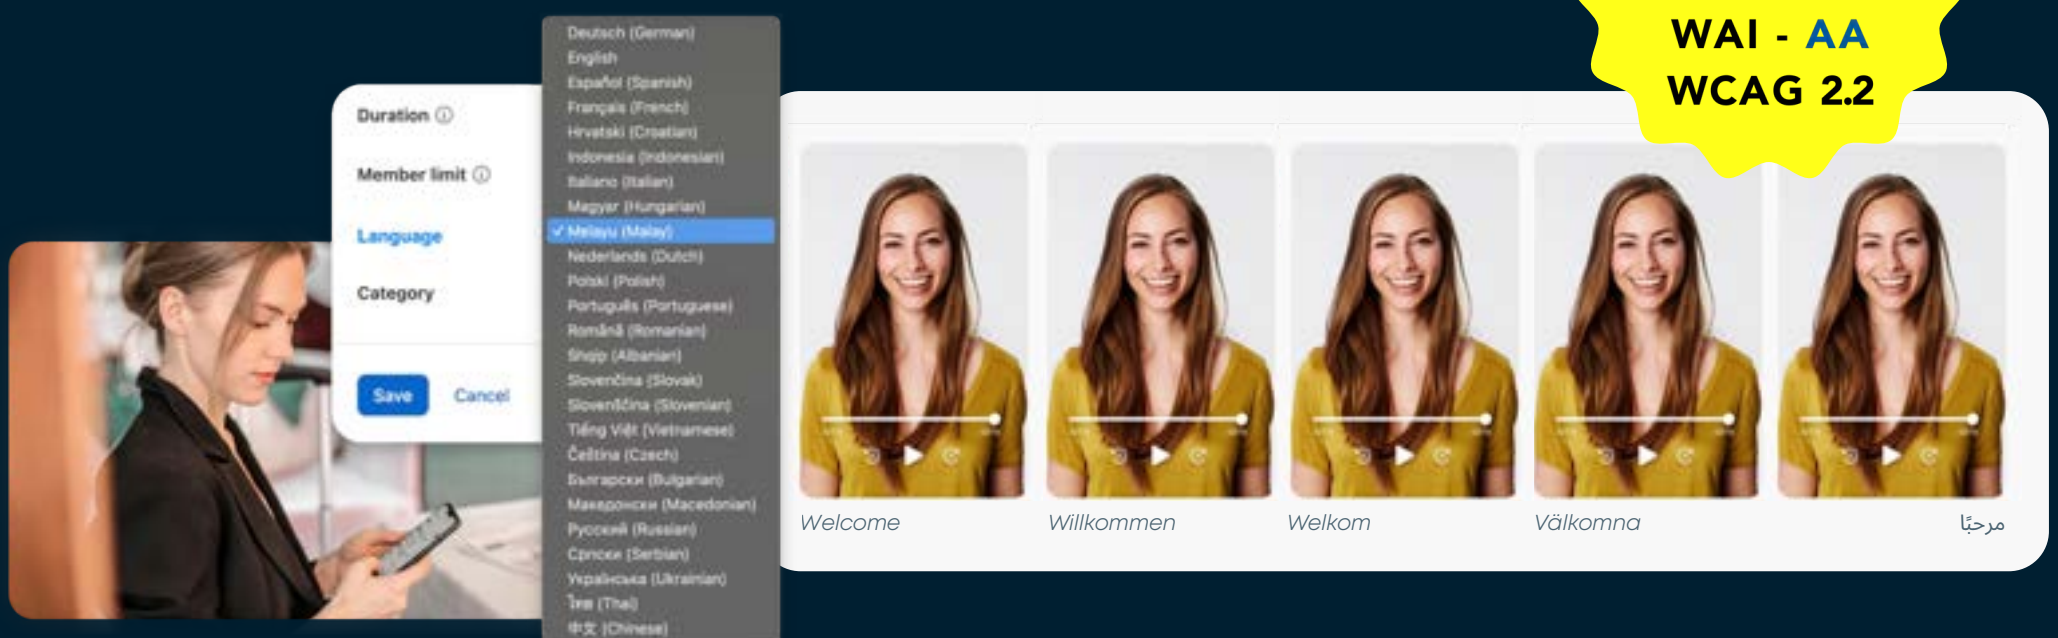

- ✓ Share events with easy registration and engaging photo libraries
- ✓ Find experts quickly with our People Directory
- ✓ Enable feedback, discussions, and peer-to-peer learning

Reach everyone without barriers

Connection
bring people
together

Fellow Intranet+ is built for your entire workforce. No one is left behind due to language, device access, or accessibility needs — everyone can participate and contribute.

Inclusivity for all

- ✓ Outstanding usability and WCAG 2.2 accessibility
- ✓ Mobile-first design for easy access on any device
- ✓ Multilingual settings and translations for diverse teams across the globe
- ✓ Email-free access — no company email required

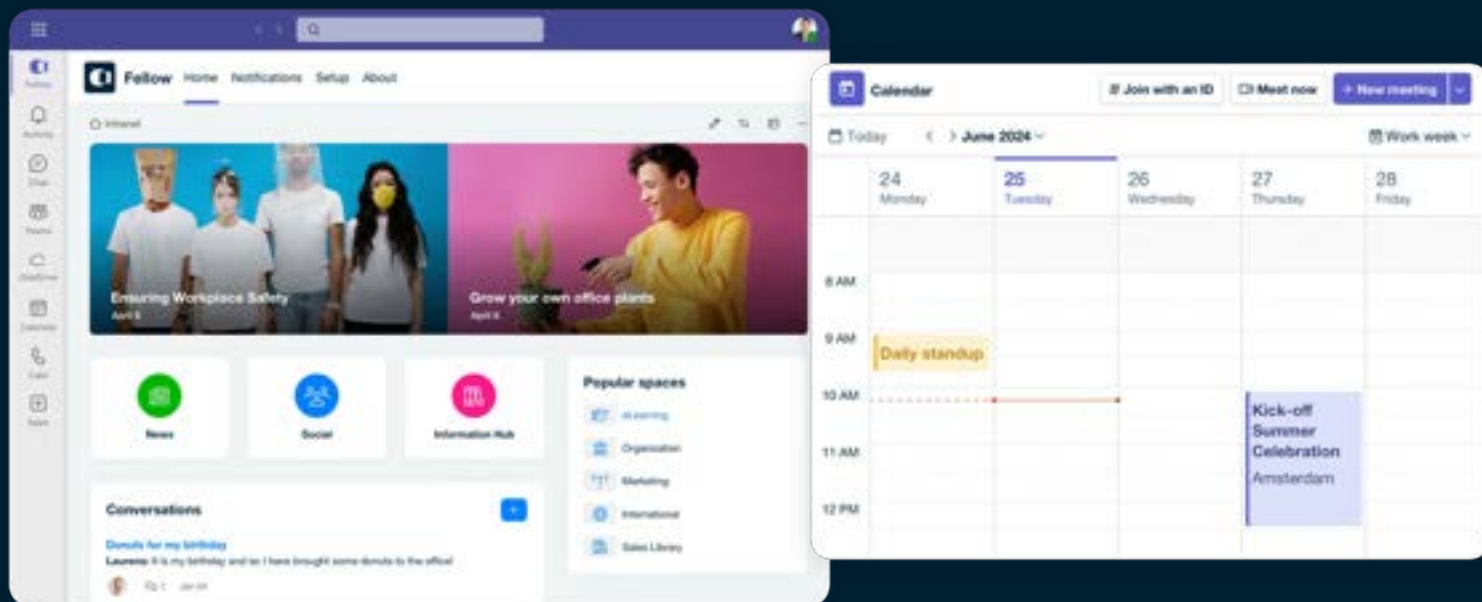

Bring all communication tools into one

Integrations

work smarter with familiar tools

Daily engagement only works when it fits seamlessly into workflows. If employees have to switch tools or remember extra logins, adoption drops. Fellow Intranet+ integrates effortlessly with your existing digital workplace.

Microsoft Teams integration

Access documents, knowledge and updates directly within Teams, no context switching

Single Sign-On (SSO)

Integrates with Active Directory and other identity providers for one secure login

User provisioning & synchronization

Automatically add or update users via your identity provider

API-based integrations

Connect with HR systems, planning tools, or other business software

fellow digital

Succeeding together

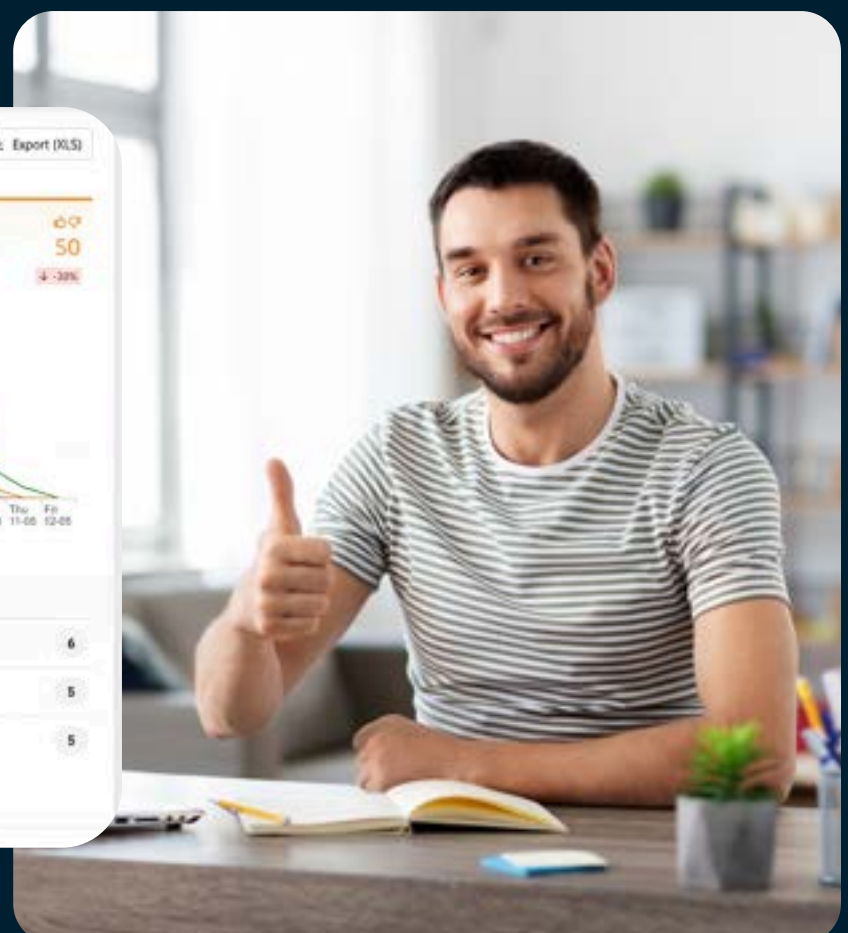

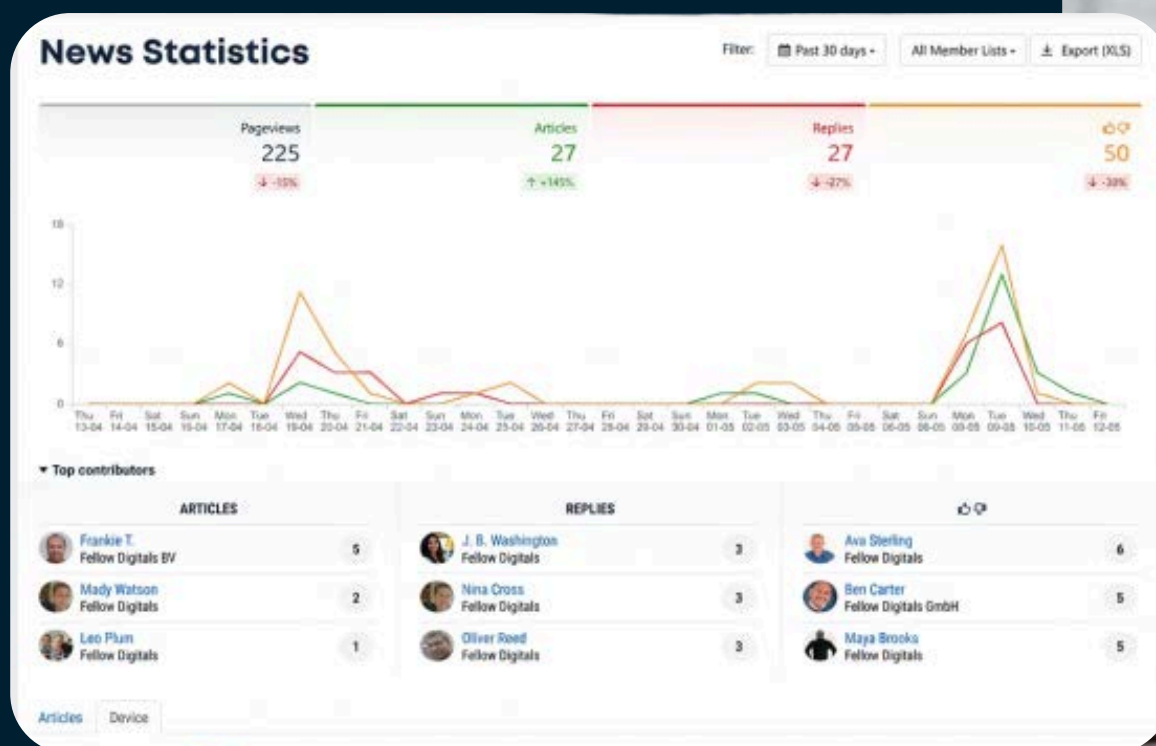

Clear insights into statistics and engagement

Statistics

Measure what matters

Track the impact of your intranet with real-time insights. Discover popular news, active users, and top-performing article, all in one dashboard.

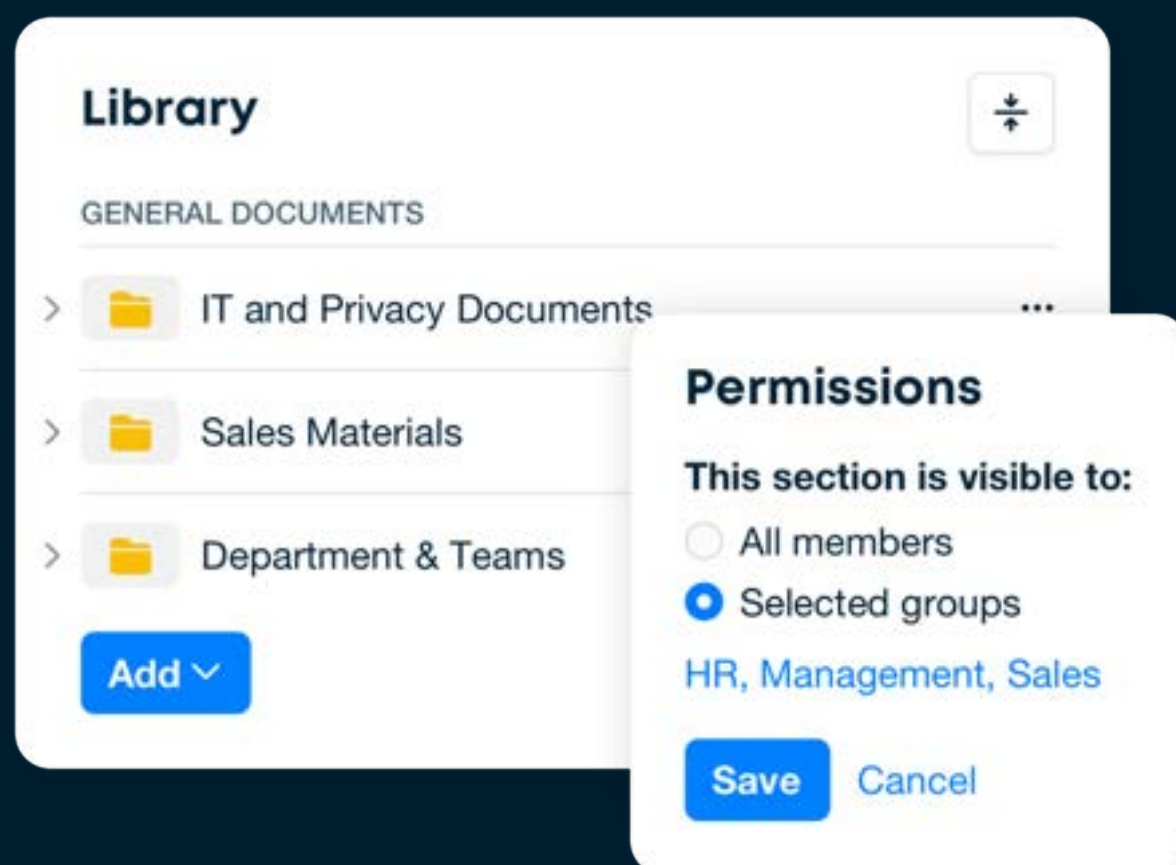

- ✓ Identify the most popular articles and links
- ✓ Monitor performance and engagement in real time
- ✓ Get a quick overview of active members (likes, replies, contributions)

Protect knowledge, without compromise

Data protection
Secure your
content and data

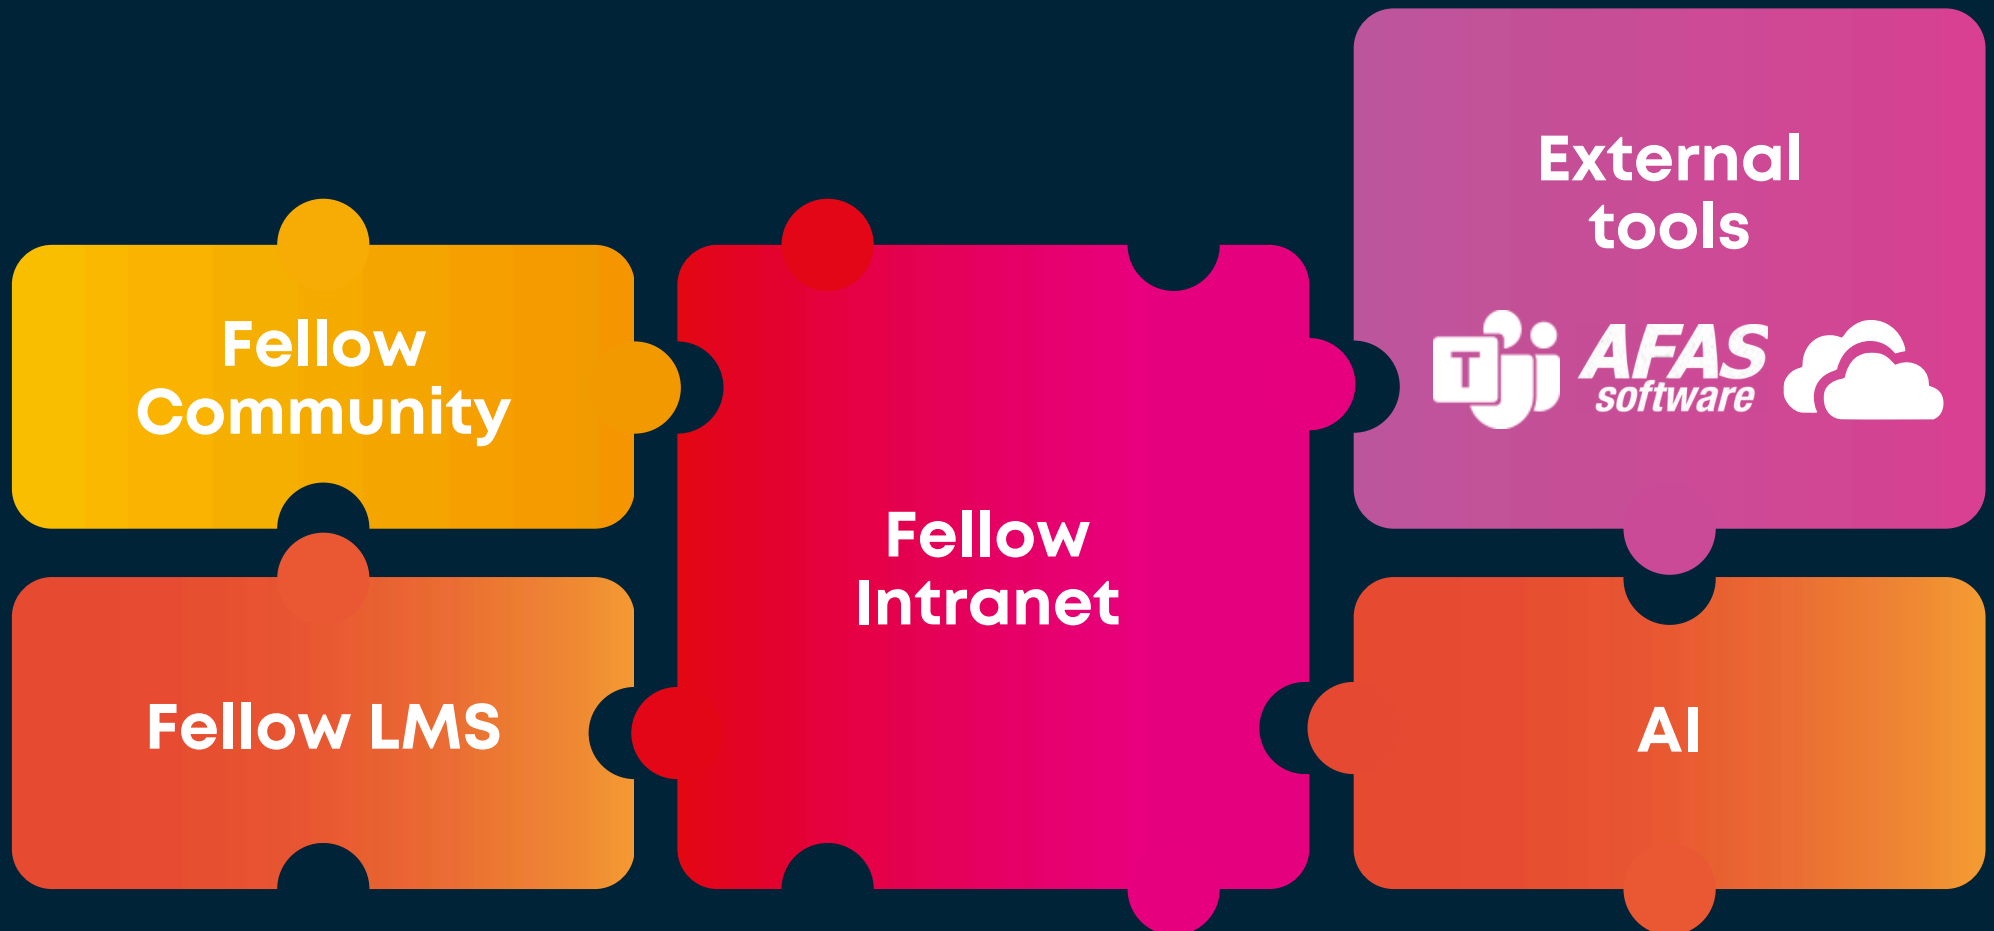

Your intranet handles sensitive data every day: personal details, test results, and company documentation. If security isn't built in from the start, trust is lost. That's why Fellow Intranet+ is secure by design.

- ✓ ISO-certified security standards
- ✓ Role-based access and permissions
- ✓ No third-party data training: your content remains yours
- ✓ Working exclusively with certified partners within the EU

● Are you ready for Intranet+?

Fellow Intranet+ is built from singular blocks, individually combined for your unique demands. Choose from “Intranet” for news and information exchange, “Community” for connection, “LMS” for training and certification and/or our AI tools for easy course creation and search. Even external tools integrate seamlessly. Together, they create a unified hub to inform, train, and connect your people.

Ready to build your organization’s Intranet+?

Our team is ready to help you get started.

Why organizations choose Fellow Intranet+

Fellow Intranet+ helps you bring people together, keep everyone aligned, and make knowledge stick. **Trusted by 600,000+ users worldwide**, our platform is the go-to solution for effective knowledge sharing and collaboration.

About Fellow Digitals!

Since 1997, we’ve been creating digital solutions that make online work and learning accessible to everyone.

Headquartered and hosted in the Netherlands, with offices in Germany, the Czech Republic, Bangladesh, and Singapore, we help global customers build integrated platforms that bring people together and enable them to succeed.

We don’t just deliver tools — we build connections. Because when people grow, teams thrive, and together, we succeed.
