

The platform where
people, information, and
collaboration meet.

Fellow Community

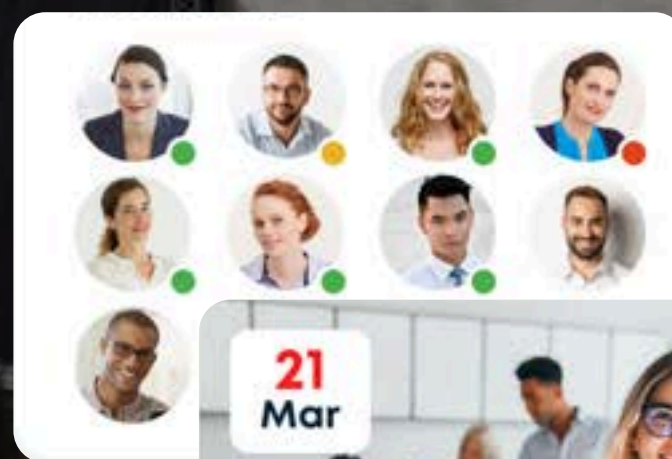

● Connected beyond limits

Your community is diverse: members, partners, and volunteers spread across locations and time zones. Traditional platforms struggle to keep everyone informed, aligned and engaged.

Fellow Community is different.

Our platform ensures every voice is heard, every update reaches its audience, and every connection strengthens your network — securely, effortlessly, and without barriers.

● Let your community grow

Information

keep everyone aligned

- Share news and updates in one central place
- Make critical information accessible to everyone
- Reduce scattered communication and information overload

Connection

bring people together

- Build strong communities across locations
- Encourage feedback and knowledge sharing
- Strengthen culture and engagement

Knowledge

share insights & grow

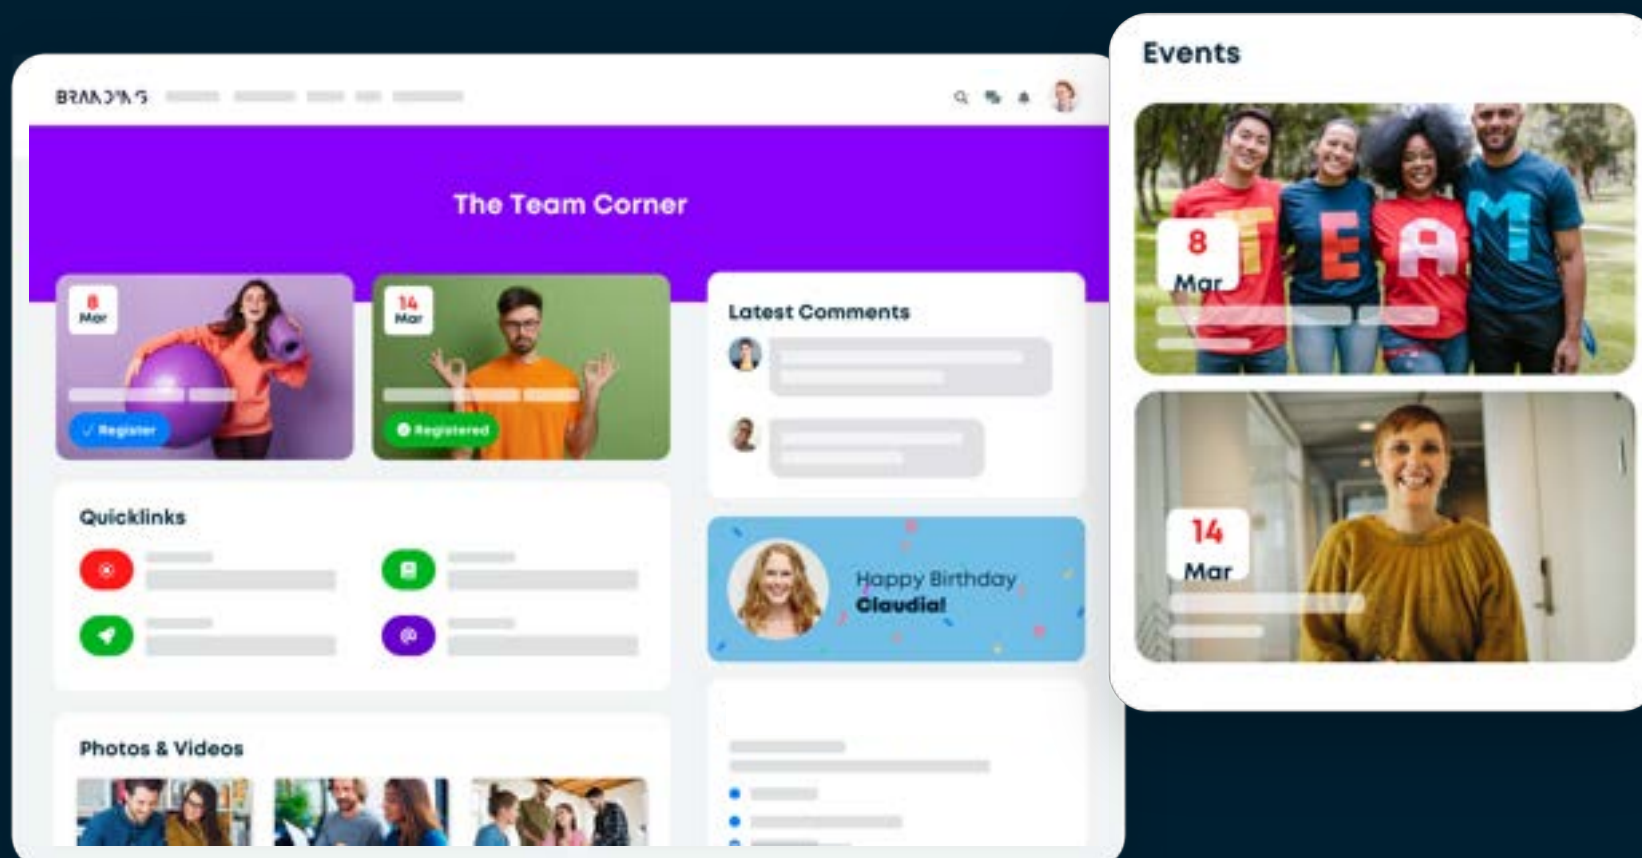

- Share documents, best practices and resources
- Enable wikis, information hubs and knowledge bases
- Keep knowledge visible, current and easy to maintain

Connection
bring people
together

From screen to street: unite your community

Even a digital community is never “just digital”. It’s real people connecting in real ways. From virtual meetups to large-scale conferences, create seamless experiences that keep your network active and connected.

**Increase connection
by 25-30%***

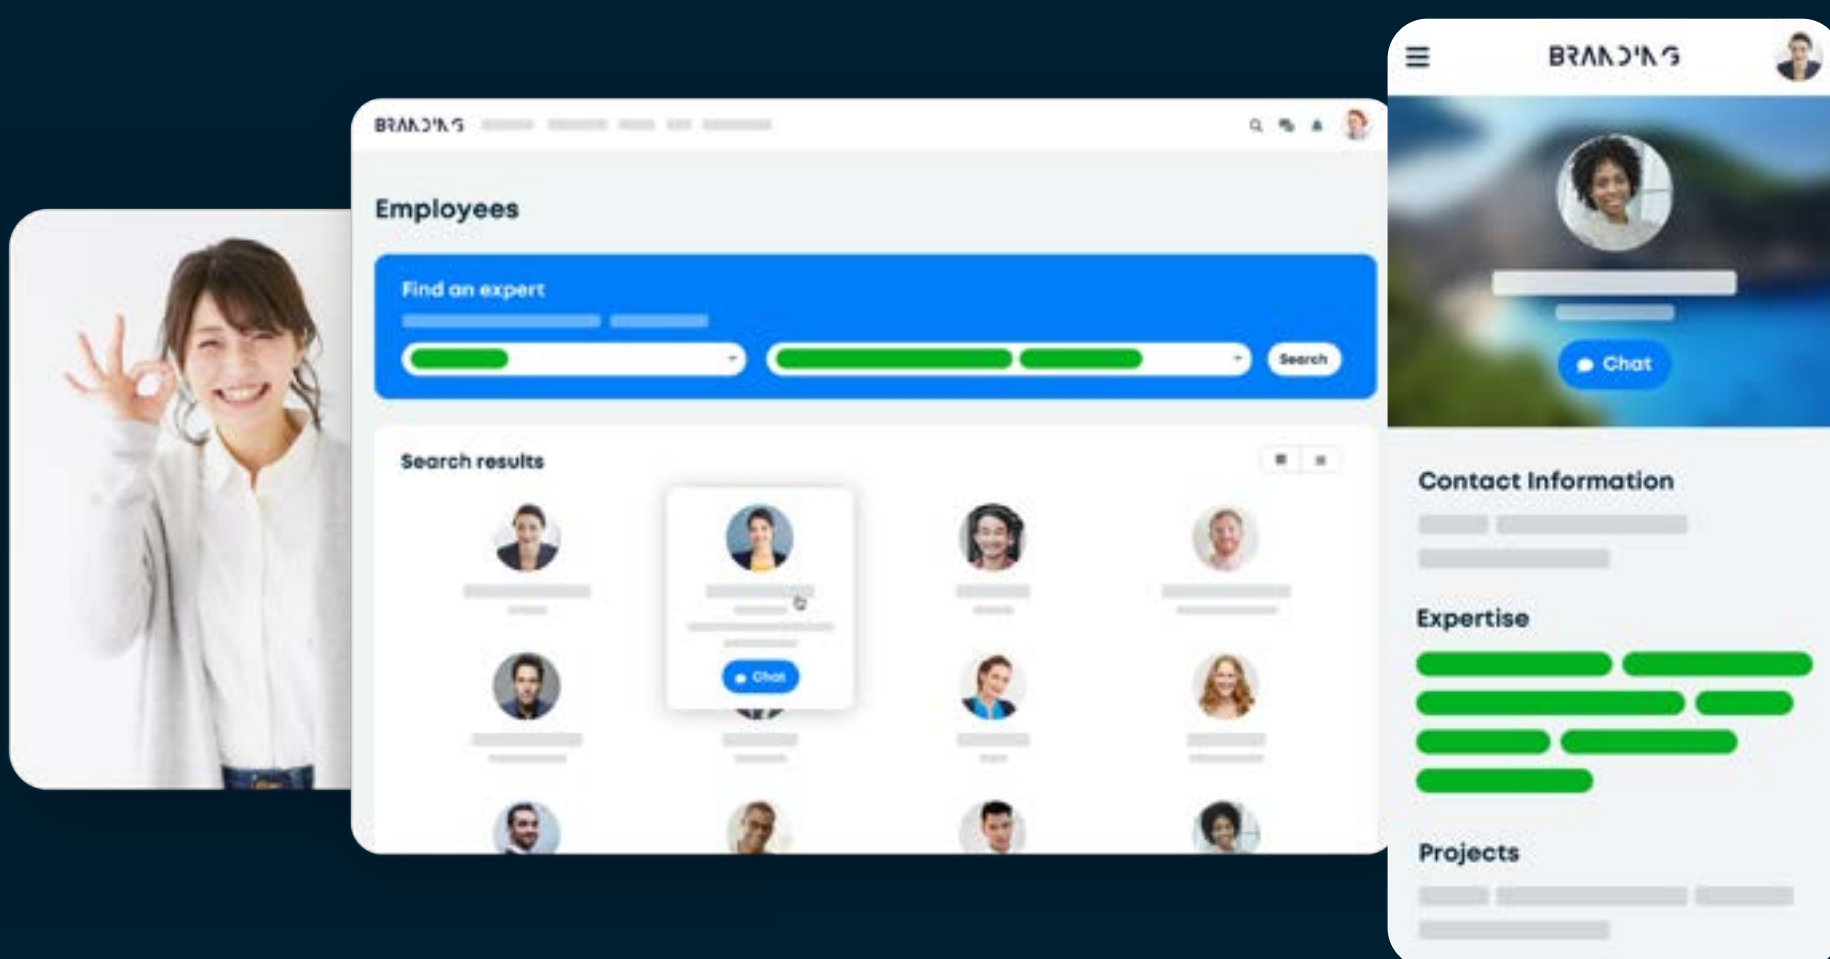

- ✓ Set up highly visible events with one-click registration
- ✓ Visible participant lists encourage networking
- ✓ On- and offline connection for deeper engagement

Find everyone you need, based on profiles

Connection
bring people
together

Need to connect with the right person? Fellow Community's People Directory makes it easy. Search by skills, roles, or interests to find experts, collaborators, or mentors across your network — no matter where they are located.

Build stronger connections

- ✓ Searchable profiles with skills, experience, and contact details
- ✓ Filter by location, department, or expertise
- ✓ Direct messaging and collaboration tools

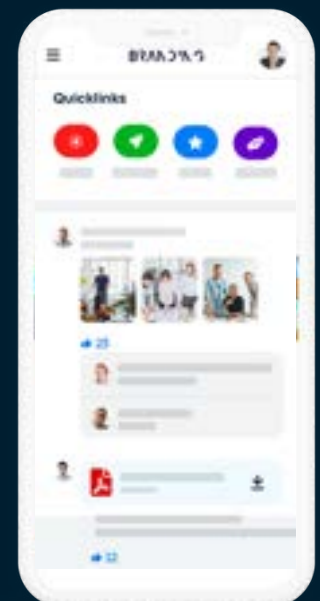

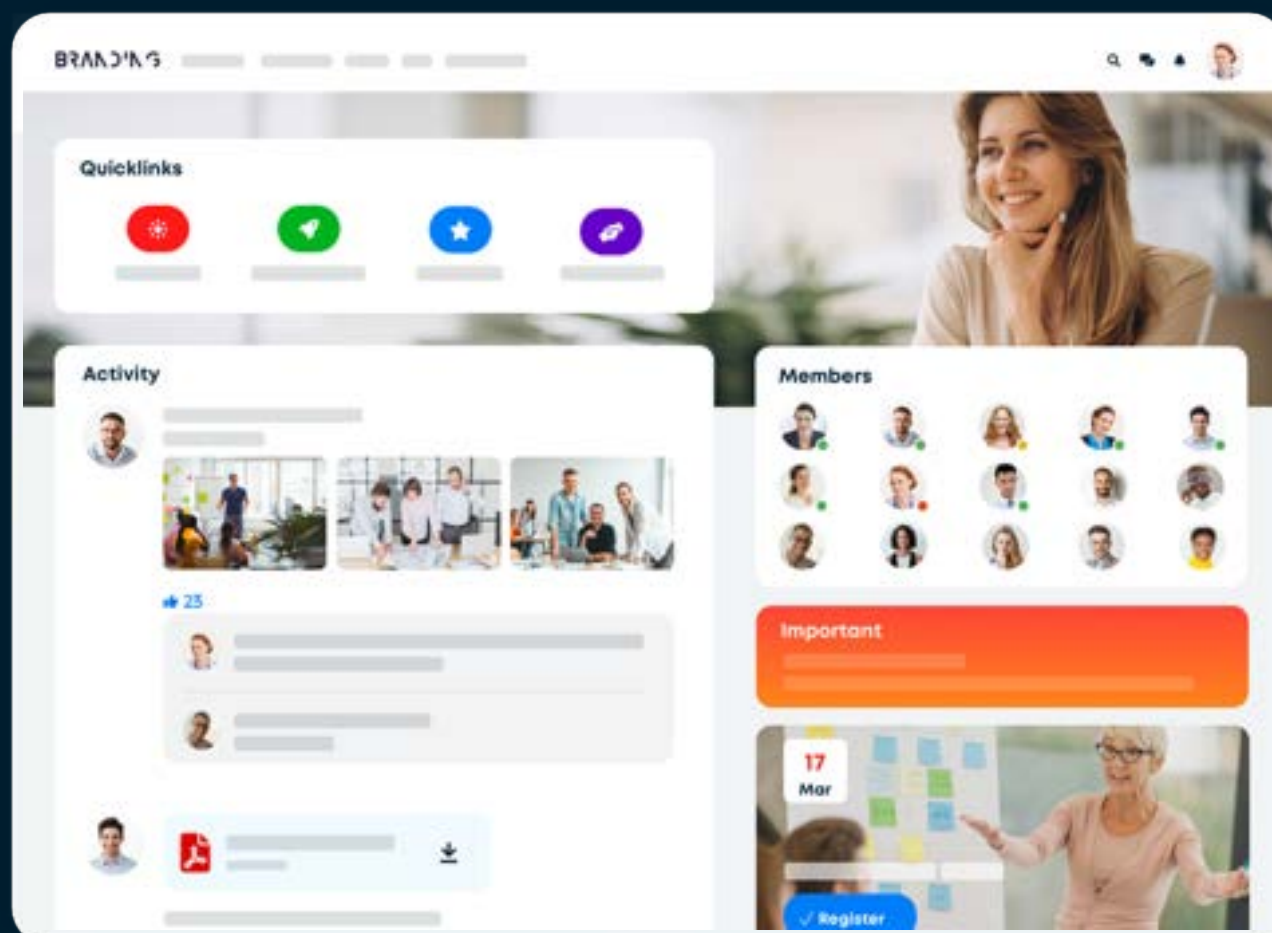

Everything in view, everyone informed

Information

keep everyone
aligned

Keep users engaged with relevant content. Fellow Community provides a personalized homepage and daily digests to ensure updates reach everyone. Because frequent, relevant content keeps your community active and your platform top of mind.

Up to 3x more intranet visits

- ✓ Branded homepage for a familiar feel
- ✓ Important news and updates in one place
- ✓ Quick links to frequently used pages

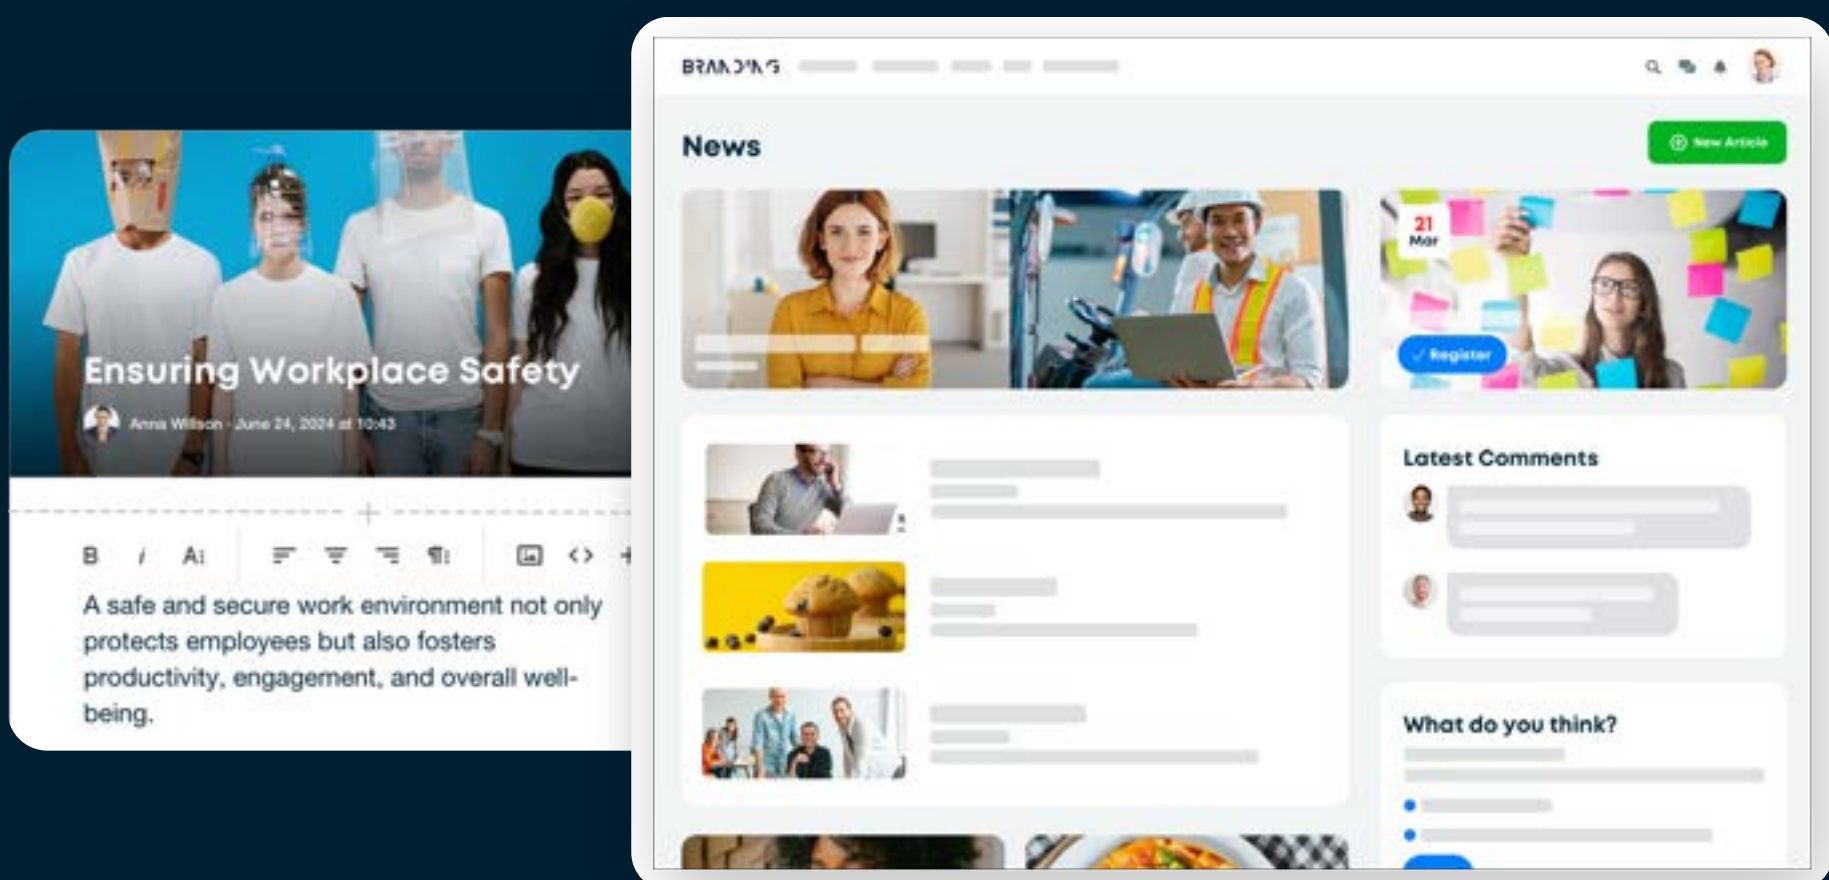

Create and publish news effortlessly

Information

keep everyone aligned

Our modern news module lets you create and publish community news in one centralized location. Enhance your content with photos, documents, and videos, and share updates instantly or schedule them for later.

Cut missed updates by 50%*

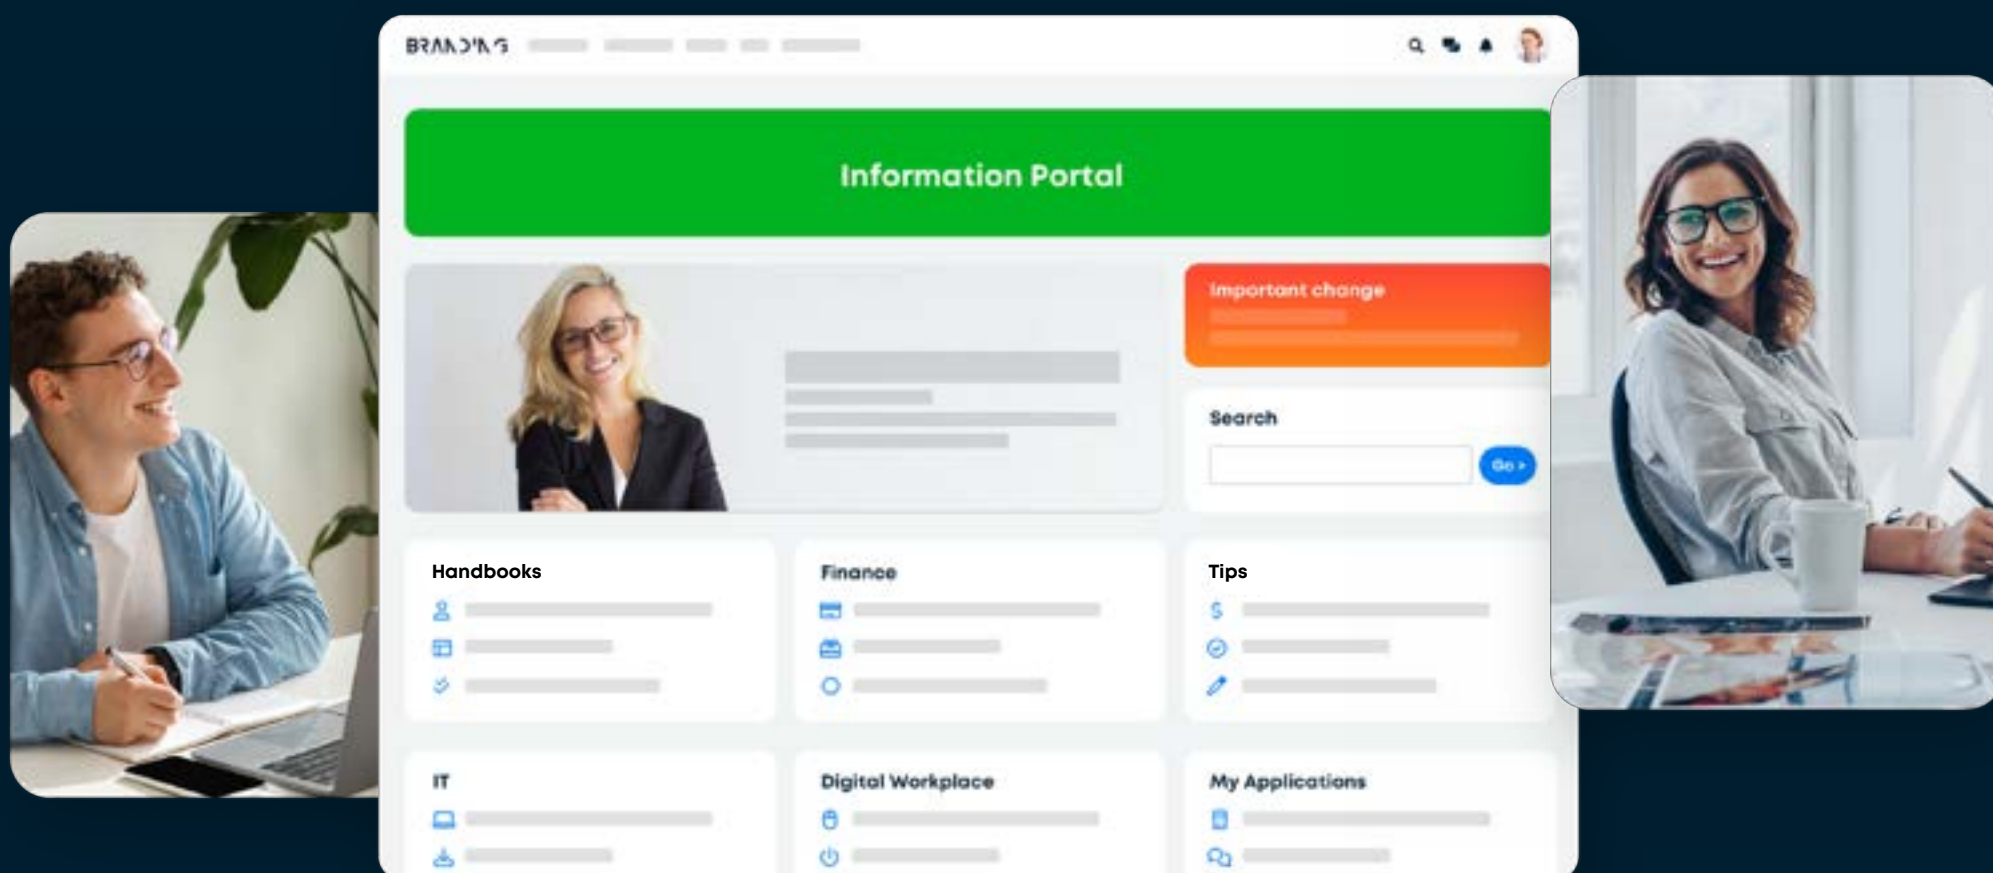

- ✓ Targeted notifications and summaries
- ✓ Co-create, schedule, and publish news in one place, including comments and translations
- ✓ Distinguish between "nice-to-know" and "need-to-know" updates

Share knowledge and insights continuously

Knowledge
share insights
and grow

Knowledge is built, refined, and shared every day—in wikis, manuals, FAQs, examples, and experiences. Fellow Community enables you to create dedicated spaces for different types of knowledge, ensuring nothing gets lost.

Always in the right format

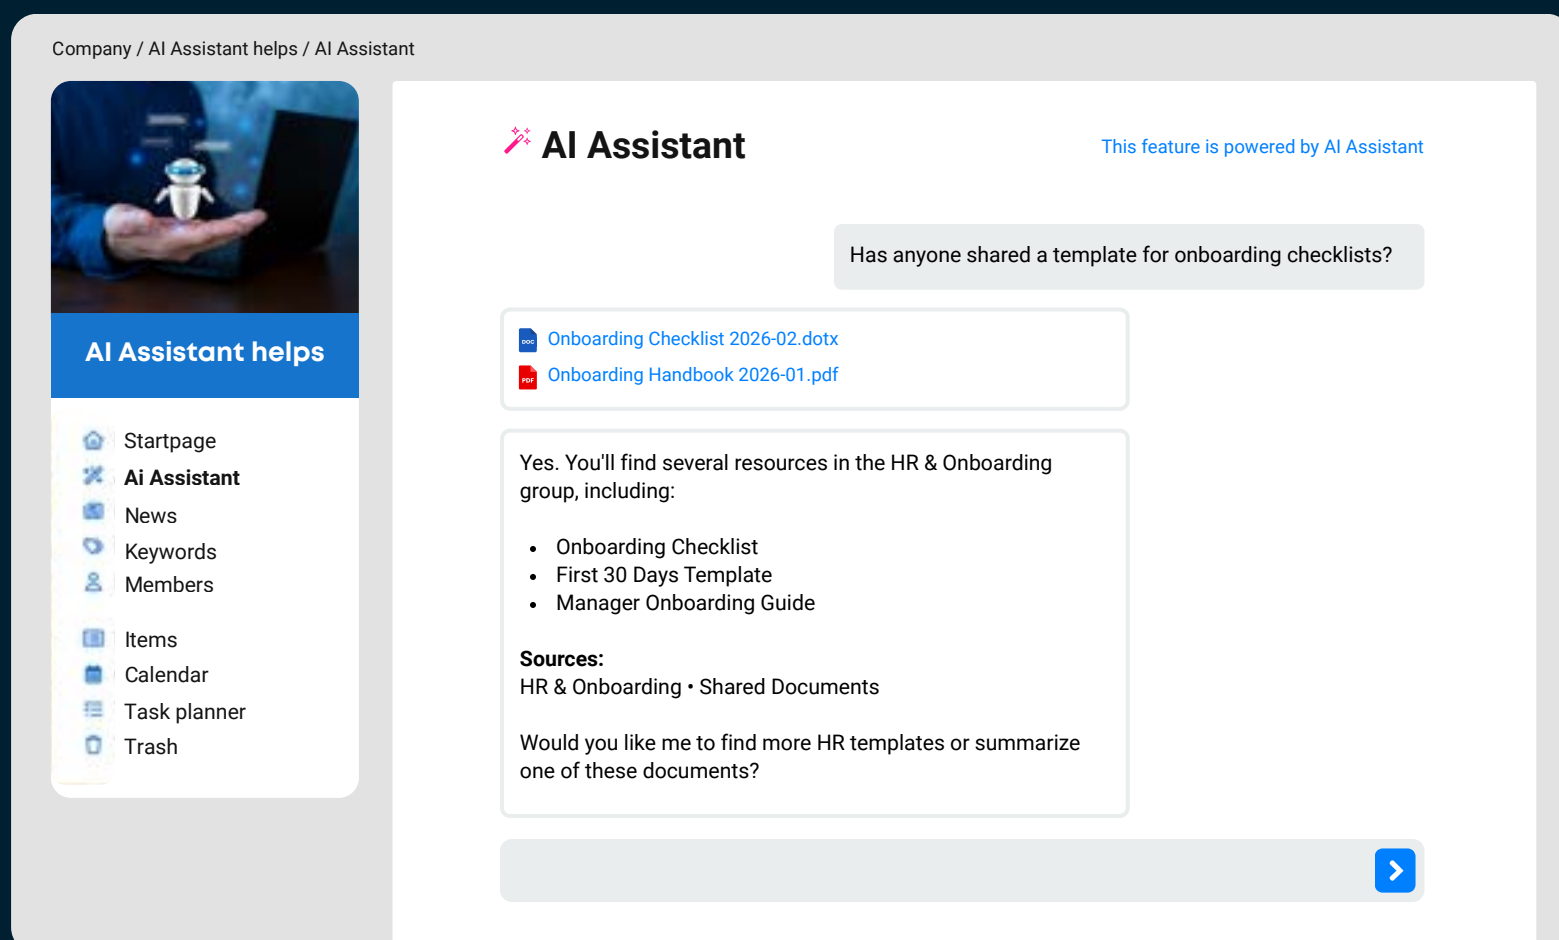

- ✓ Structured information portals for policies, manuals, and guidelines
- ✓ Wikis to capture evolving knowledge and best practices
- ✓ Alternative information channels, e.g. eLearning, microlearning, blended learning

AI-support for faster knowledge

Knowledge
share insights
and grow

Ask questions and receive answers based exclusively on your group's documents. Our AI assistant keeps permissions in check, so you only see answers from content you are entitled to.

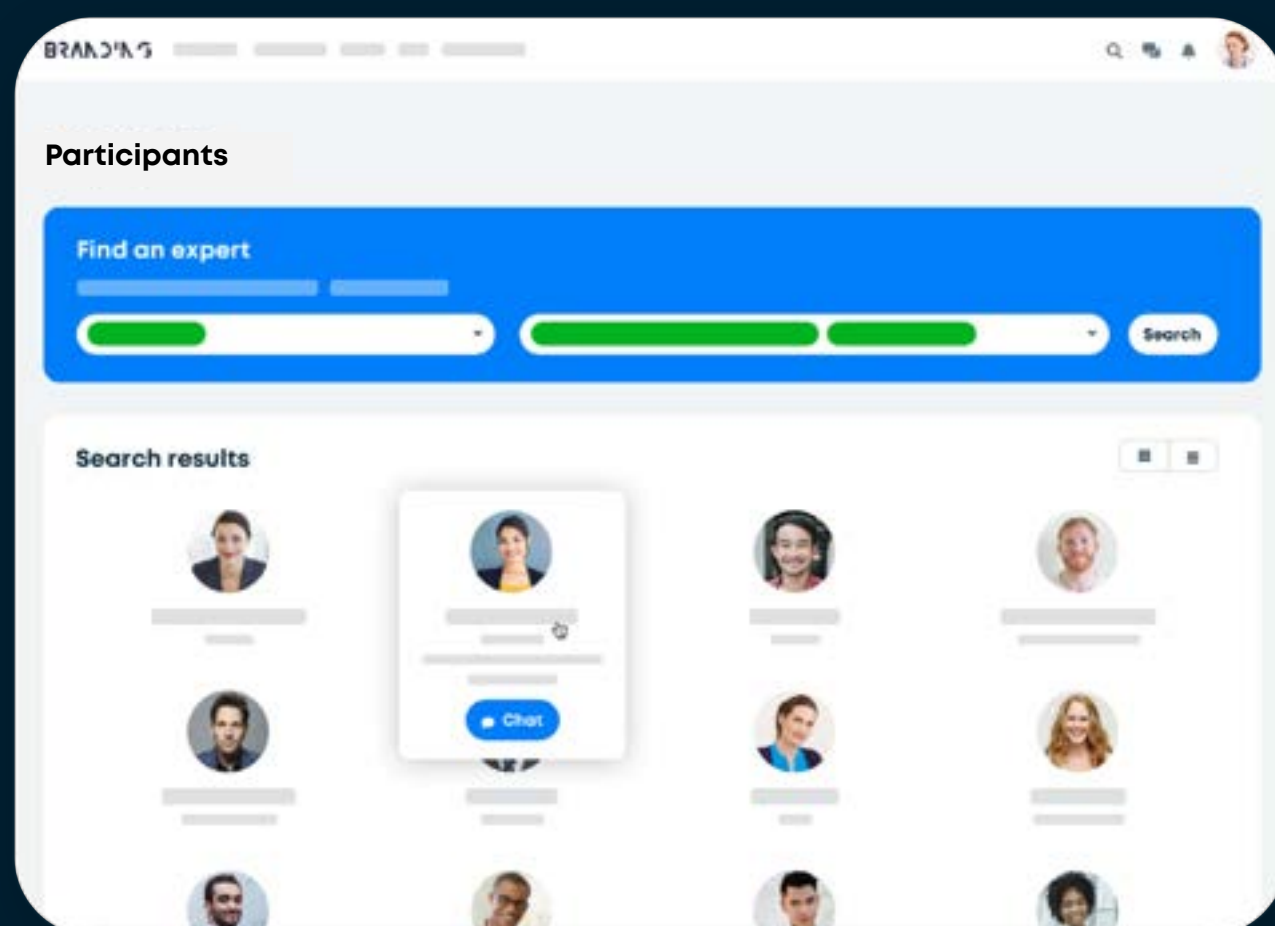

Find information faster

- ✓ Group-wide search: AI accesses only your group's documents
- ✓ Document-based responses: Answers are generated from your indexed content
- ✓ Data security: AI processing only by certified European partners

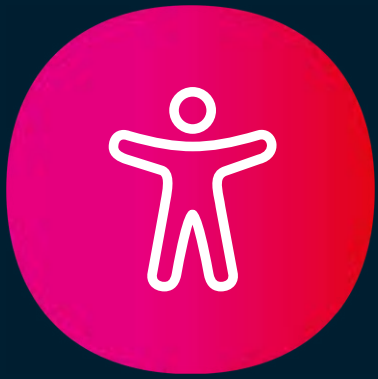

External users naturally involved

Barriers for external users? Fellow Community removes them. Add and manage external members, such as volunteers, partners, and contributors. With simple access rights, everyone can network, find information, and contribute to your community's success.

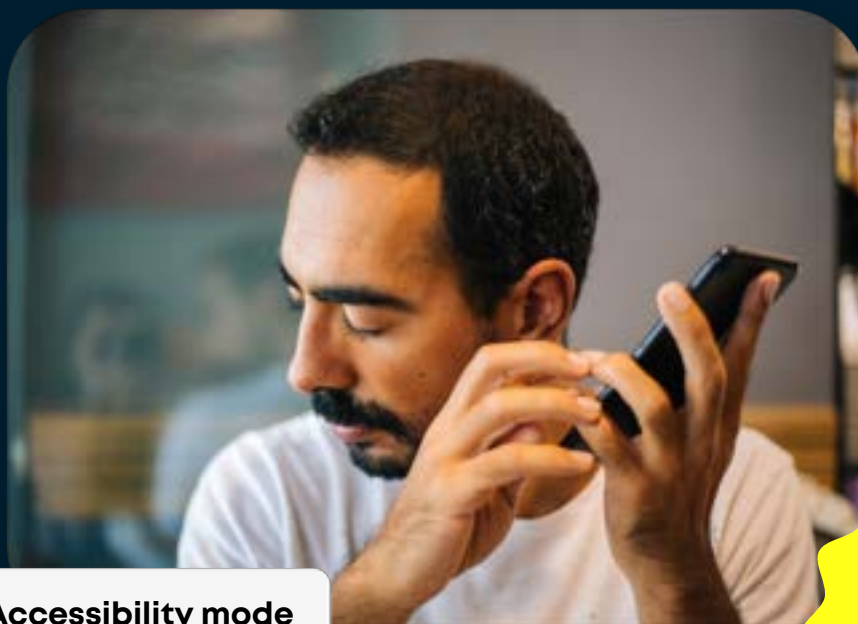

Seamless integration for all

- ✓ Easy user management through integrations
- ✓ Secure and easy access rights
- ✓ Full platform access for networking, information, and contribution

Reach everyone without barriers

Fellow Community is built for your entire network. No one is left behind due to language, device access, or accessibility needs — everyone can participate and contribute.

☒ Enable Accessibility mode

Inclusivity for all

- ☒ Outstanding usability and WCAG 2.2 accessibility
- ☒ Multilingual settings and translations for diverse teams across the globe
- ☒ Easy access on any device

Clear insights into engagement

A community platform only creates value when you know what's working—and what isn't. Without insight, engagement becomes a guess. Fellow Community turns activity into clear, actionable data.

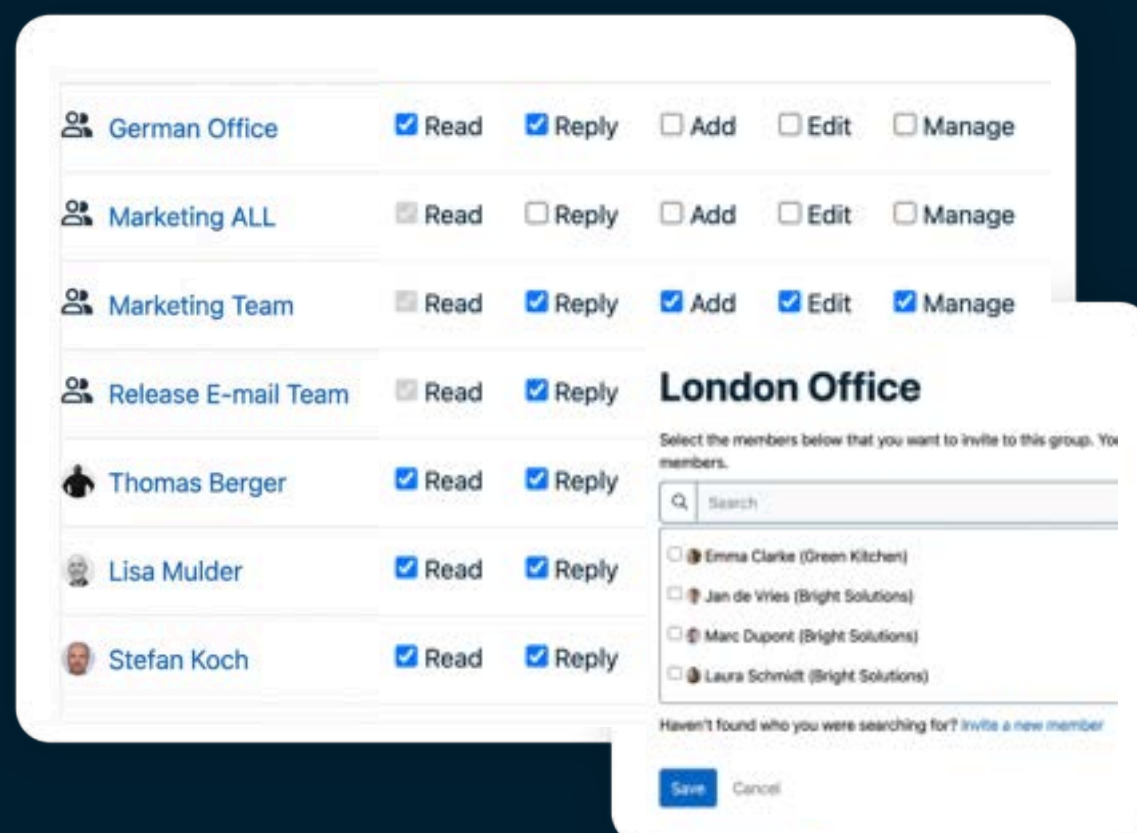

Measure what matters

- ✓ Real-time visibility into activity, participation, and growth
- ✓ Track popular content, active members, and group interactions
- ✓ Identify trends to improve engagement continuously

Protect knowledge, without compromise

Community platforms handle sensitive information every day: personal data, internal communications, and confidential discussions. If security isn't built in from the start, trust is lost. That's why Fellow Community is **secure by design**.

- ✓ Working exclusively with EU partners
- ✓ ISO-certified security standards
- ✓ Role-based access and permissions
- ✓ No third-party data training - your content remains yours

● Are you ready for your online community?

Fellow Community combines all essential community features, including news, information groups, expert search, and databases. Together, they form one platform to inform, connect, and unite your people.

Ready to build **your organization's own community**?
Our Fellows look forward to get started with you.

Why organizations choose Fellow Community

Community alone is not enough. Fellow Community supports networks in connecting, collaborating, and growing together. This transforms engagement into lasting value. Every day, more than **600,000 users worldwide** rely on our platforms for effective collaboration.

About Fellow Digitals!

Since 1997, we have been creating great digital solutions that make online working and learning accessible to everyone.

We're founded, headquartered and hosted in the Netherlands, but with offices in Germany, the Czech Republic, Bangladesh and Singapore, we help customers around the world create an integrated platform that brings people closer together and enables them to succeed and grow.

We don't just deliver tools. We build connections.
Because when people grow, teams thrive—and together, we succeed.
